

Beyond that you get \$VAVA as a result of the computing power delivered, you can also choose to receive your mined result in USDT among other Stable Cryptocurrencies.

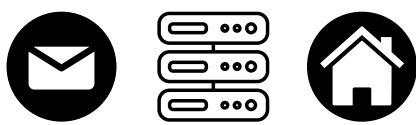

"We think that cryptocurrency mining should be more energy efficient and above all a technological tool that benefits those who participate."

— VAVA CEO

How to interact with your mining equipment and the benefits obtained?

Let us explain it to you!

At the time of the acquisition of your **V-Miner** you were already registered in the database having left an **email** to link to the equipment you have acquired. You will start to get benefits as soon as you connect it successfully.

From the **vavapool.online** website you can interact with your team visually. Enter with your email and password provided via email. You can enter from your cell phone, tablet and pc at all time and monitor your equipment by serial.

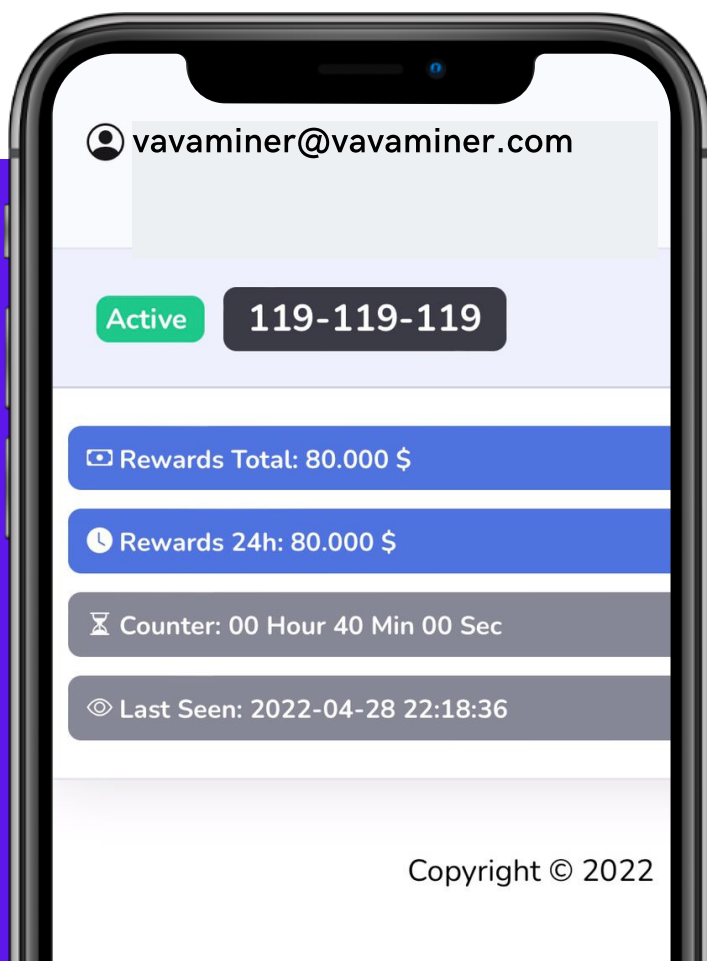

The benefits obtained will be sent automatically to the electronic wallet (**wallet**) that you have assigned to your email in our database.

Important Clarifications!

For costs reasons of the network on which \$VAVA temporarily operates, those who have between 1 and 4 units of V-Miner in their account will receive their benefit every 96 hours (4 days). Those who own 5 or more units will receive their benefit every 24 hours.

For reasons of simplicity, our clients who do not wish to interact and speculate directly with \$VAVA are offered the possibility of obtaining the profit converted at no cost to stable cryptocurrencies of their choice.

Live access to your **statistics.**

Receive precision email notifications when your equipment might need your help.
