

It's time to use your **\$VAVA**. What do you want to do? Did you know that you have several options from which you can choose?

"Be in total control of your cryptocurrencies at all times. Keep them safe and of course verify the transactions and details."

— VAVA CEO

How to interact with the benefits obtained on the different platforms and electronic wallets?

Let us explain it to you!

If you have chosen to obtain the benefits of your mining equipment in **\$VAVA**, you may have a series of questions about how to receive the reward safely.

You can install some of the apps that are available for your cell phone and tablet such as **TrustWallet** and as well as the **MetaMask** that is available even for your PC.

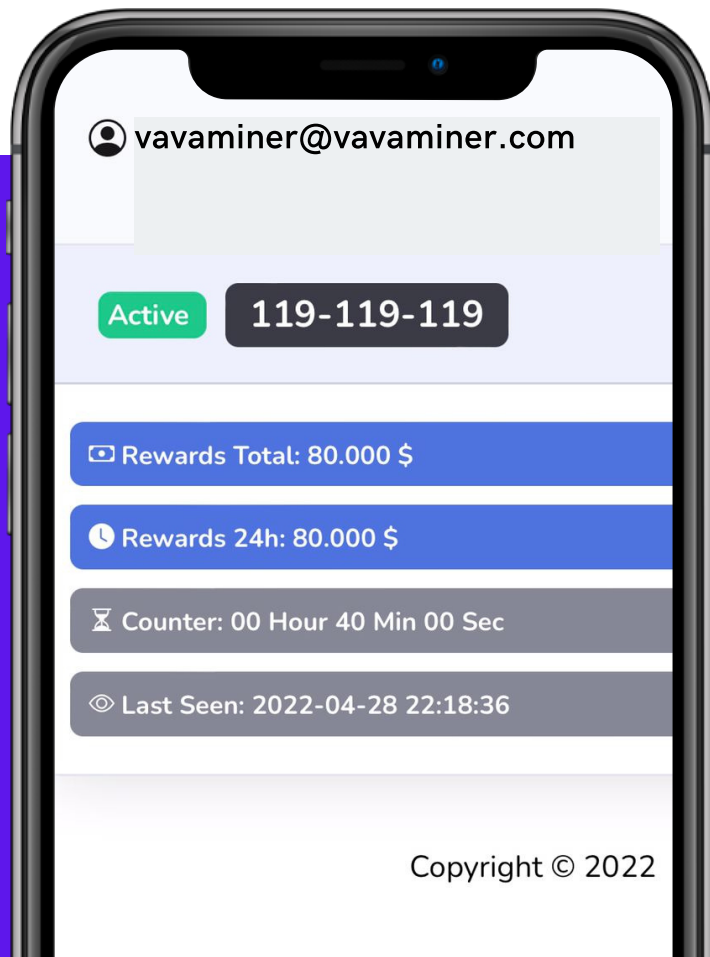

Install any of the programs mentioned above and scan the **code** on our website to add the VAVA token contract to the list. As soon as you have the assigned reception wallet, you can send us an email with it so that we can link it to your account. The benefits obtained will be sent automatically to the electronic wallet (**wallet**) that you have assigned to your email in our database.

Important Clarifications!

For security we recommend users to make sure that your private keys are stored safely.

Most wallets have keyword recovery methods with 12 and 24 words positioned in a specific order. Make sure they are well stored and that you are the only one who knows what they are.

Live access to your **statistics**.

Receive precision email notifications when your equipment might need your help.
